Review of Growth Strategy & Capital Allocation

DX, the provider of delivery solutions, including parcel freight, secure courier and logistics services, is pleased to announce that the Board is commencing a wider review of the Group's growth strategy and capital allocation policy.

This review will build on the Group's existing investment plans, outlined in its preliminary results announcement made on 8 November 2021, which reported the launch of a three year £20-£25 million capital investment programme and focus on M&A opportunities. The review will consider the Group's total shareholder returns and capital allocation policy, including dividend policy and share-buy backs, and will only be capable of being concluded once the Group has published its 2021 audited Annual Report and Accounts. The review will be led by Liad Meidar, recently appointed as a Non-executive Director, and will help to ensure that the Group's resources are allocated to deliver optimal returns for shareholders.

Ron Series, Chairman of DX (Group) plc, said:

"The commencement of this review, led by Liad, is intended to ensure that we are in the best position to take full advantage of all opportunities available to the Group with the aim of maximising shareholder returns over the medium term. We continue to seek ways to develop DX post its turnaround success."
